

real food for all™

time for a new year's revolution!

We're so ecstatic to be serving the SFUSD community in 2013, we can't wait to ring in the new year.

At Revolution Foods we say "Real Food for All". We believe in foods that are whole. Foods made with carefully-considered ingredients. And, freshly prepared, nutrient rich foods that promote healthy growth and development. After all, creating smart minds starts with fueling healthy bodies.

To us, foods shouldn't be laced with chemical sweeteners. Ingredients shouldn't be six syllables long. And, there shouldn't be 42 ingredients in a flavor. "Artificial" is never an ingredient.

Our children look to us to provide the support they need for a healthy future. Because they deserve better than junk.

Interested in a healthy New Year's Revolution? Join us in ringing in a delicious and nutritious 2013!
